

2019 Patient Safety Awareness Week Schedule of Events

Monday, March 11, begins UHealth's observance of 2019's Patient Safety Awareness Week – an annual national campaign to increase awareness about patient safety among health care professionals and the public.

This year's theme is "Zero Harm" – an affirmation of our dedication to creating the safest possible environment for our patients and for each other. You'll see that echoed in our signage, handouts and presentations in the following

schedule of events.

Monday, March 11
