

# UHealth Celebrates Opening of Second One Medical Clinic in Miami-Dade County

Leadership and staff from UHealth – University of Miami Health System joined their counterparts from One Medical on Monday, January 30, to celebrate the opening of One Medical’s newest primary care clinic in South Florida. The facility, located across from Brickell City Center in Downtown Miami, at 86 SW Eighth St., features primary care doctors who see patients age 14 and older.

Roy E. Weiss, M.D., Ph.D., chief medical officer, ambulatory services, UHealth; Rafic Warwar, chief ambulatory officer, UHealth; Jorge Rodriguez, chief of primary care, UHealth; Dipen J. Parekh, M.D., COO, UHealth; and Amir Rubin, CEO and president of One Medical

One Medical's membership-based model provides on-demand, 24/7 access to telehealth services, paired with convenient in-person care. The affiliation with UHealth creates a seamless integration for patients requiring more specialized care or hospitalization. One Medical patients, including all University of Miami employees who elect to enroll, have access to UHealth specialists, along with the ease of telemedicine and on-demand services for primary health care, including wellness, prevention, chronic conditions, urgent care, and mental health.

“We are excited to see a second location open to better serve patients in South Florida,” said Dipen J. Parekh, M.D., chief operating officer of the University of Miami Health System. “We have a shared vision to transform health care in our community as we provide outstanding service to our patients. This expanding model helps us expand our reach.”

Amir Dan Rubín, chair and CEO of One Medical, said, “This is a wonderful integration to make health care more accessible and increase the value of that care for consumers and employer. We are thrilled to work with the University of Miami Health System to benefit their employees and other South Florida patients.”

One Medical opened its first location in December. Family care can be found in Doral Square, 8700 NW 36th St. in Doral. There are plans to open a third One Medical location at Esplanade at Aventura, 19505 Biscayne Blvd., in March, that will provide primary care for those 14 and up, along with the integration to UHealth for specialty services.
